

KOACH HATZIYUR SERIES

HOW EASY IT IS FOR HASHEM TO HELP

Place your bitachon in Hashem forever, for with 'ה,' Hashem created the worlds. (Yeshaya 26:4)

This teaches us that all the worlds are insignificant before Him, for with half of His name they were created, and they were growing continuously to the end of all the worlds, until He told them to stop. (*Medrash Tanchuma Chayei Sara 3*)

The Pasuk seems to be saying: The One Who created the entire universe with one little letter could be trusted to take care of you, his beloved son's, little problem. However, in truth, this concept goes much further. Another Pasuk states: [*Hashem is*] *the One who renews, in His kindness, every day and constantly, the original Creation.*

Rav Chaim Voloziner explains: Although Hashem creates something from something else, nevertheless, He also creates every day and constantly something from nothing through His Divine supervision, even after Creation. **For if He were to remove His *hashgacha* for even a moment, G-d forbid, all the worlds would immediately turn to complete nothingness.** This being so, in reality He creates everything from nothing everyday... (*Nefesh HaChaim*)

Whenever we have a predicament we should visualize in our minds: Not only is Hashem all-powerful and needn't invest any effort to save us, but any predicament we may be in can only exist through Hashem's recreating it, together with the rest of the world, every second. He need not even change anything in order to save us, **He just needs to merely cease willing it to exist in the first place.**
